ROAS Trend Over Time

Fit Pulse spent \$18.53M and generated \$53.65M in net revenue but Blended ROAS of 3.2 sits below the 4.41 breakeven threshold. ROAS has been declining for 8 consecutive quarters. Over a third of all campaigns (37.38%) are confirmed Obvious Losers. Without intervention, spend will continue growing while profitability shrinks.

Budget Distribution by Decision Category

ROAS Gap to Breakeven by Product

\$10.2M in active spend is going to campaigns that will never break even. Only 7.63% of budget is allocated to Scale campaigns. Protein Bars is the worst performer at 3.0 below breakeven. The immediate action is clear cut Protein Bars, recover \$10.2M and redirect it to CR-001 Google Low Fatigue campaigns which are the only consistent above-breakeven performers.

Top Scale Candidate

| ad_id  | platform | product  | Total Spend | Blended ROAS | fatigue_status | scalability_decision |
|--------|----------|----------|-------------|--------------|----------------|----------------------|
| CR-001 | Google   | Creatine | 4,370       | 7.7          | Low Fatigue    | Scale                |
| CR-001 | TikTok   | Creatine | 2,327       | 7.4          | Low Fatigue    | Scale                |
| CR-002 | Google   | Creatine | 1,505       | 8.7          | Low Fatigue    | Scale                |
| CR-002 | Meta     | Creatine | 2,167       | 6.0          | Low Fatigue    | Scale                |
| CR-002 | TikTok   | Creatine | 4,745       | 8.1          | Low Fatigue    | Scale                |
| CR-003 | Google   | Creatine | 1,414       | 7.5          | Low Fatigue    | Scale                |
| CR-003 | Meta     | Creatine | 483         | 4.9          | Low Fatigue    | Scale                |
| CR-003 | TikTok   | Creatine | 229         | 8.8          | Low Fatigue    | Scale                |
| CR-004 | Google   | Creatine | 6,023       | 8.1          | Low Fatigue    | Scale                |
